# Spring Health Assessment Report

Generated on: Jan 30, 2025

Created on Jan 30, 2025
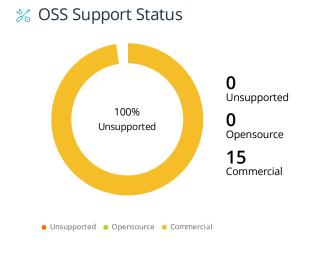

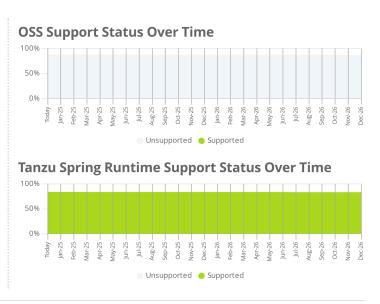

15
Total Spring libraries used

⚒ OSS Support Status

100%
Unsupported

● Unsupported ● Opensource ● Commercial

🔒 Security Vulnerabilities

60%
Libraries with
Vulnerabilities

● None ● Low ● Moderate ● High ● Critical

⟳ Upgrade Effort

100%
Major Version
Upgrade Effort

● None ● Minor Version ● Patch Version
● Major Version

🔍 Findings

1   You have **15 libraries** that are likely to require **High engineering effort** to upgrade.

💸 Recommendations

• Purchase Spring Runtime to extend your support until **2026-01-30**, for **0 libraries** which are set to expire in **1 week**.

• Questions? Get Help from Tanzu Labs to upgrade your apps.

📋 Disclaimer and Known Limitations

Please Read Carefully

This report provides an assessment of the Spring libraries used within your project, detailing support status, security vulnerabilities, and migration efforts. It is essential to understand the scope and limitations of this assessment:

- Our vulnerabilities database is updated every 6 hours. If a new vulnerability appears over that period, it will not be included in the report.
- The vulnerabilities introduced by transitive dependencies do not consider overridden versions through dependency management.
- You do not always require full upgrade to mitigate the vulnerabilities reflected in the report. Sometimes, you can alternatively overwrite a dependency.

Should you encounter any issues or anomalies in this report not listed above, we strongly encourage you to contact our support team for a detailed review and assistance in UTC+1 working hours.

Support Contact

Email: shar-support.PDL@broadcom.com

For support, reach out to us through the contact options above, and we will be glad to assist you during working hours.
